

Application Instructions

EasyWeed™ Heat Transfer Vinyl

Best-Selling Heat Transfer Material for T-Shirts.

Why is this our number one selling cuttable heat transfer vinyl material? The EasyWeed advantage! Lower temperature, HOT or COLD peel, no lifting, durability wash after wash, and lower pressure. It's thinner than our competitors' material and offers a one-step application that's great for multiple layers. Comes on a pressure-sensitive carrier.

Available in 15" width / 5, 25, and 50 yard lengths

Recommended Accessories: Weeder, Kraft Paper or Teflon® Sheet
