

Manufacturing Unique Custom Rhinestone Designs & Apparel™  
When you need it today, it's on its way, we make it in the USA!™

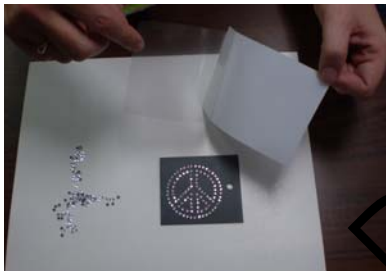

1. Place stones on template

2. Using the brush, sweep the stones into the holes using a back and forth motion

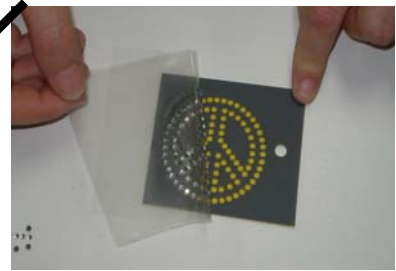

3. Brush all excess stones off the template and be sure the stones are right side up

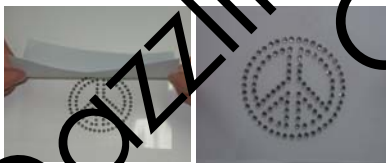

4. Peel white backing from the transfer tape.

5. Place transfer tape over design. Use your hand to press the tape on the stones.

6. Peel the transfer tape off of the template.

7. To protect the design, place the white backing back on the tape. You can skip this step if you are ready to press the design to your garment.

8. Place the design on garment adhesive side down. You are now ready to heat transfer your design. Please see heat transfer instructions at: [www.dazzlingdesignsinc.com](http://www.dazzlingdesignsinc.com)

9. Design is permanently bonded to the material. It can be machine washed and dried.
